## ABOUT ME

As an Electrical and Electronics Engineer, I am passionate about data science and AI. Since completing my degree, I've focused on continuous learning in Python, R, data analysis, and machine learning. My experience includes practical AI applications in sustainability and a solid foundation in electrical systems. I aim to leverage technology and data to create innovative solutions and make impactful contributions in data science and AI.

## Skills & Abilities

- **Programming Languages:** Python, R
- **Data Analysis:** Data analysis and visualization
- **Machine Learning:** Machine learning algorithms and models
- **Deep Learning:** Deep learning techniques
- **Statistics:** Statistical analysis and data interpretation
- **PCL & AutoCAD:** Electrical project design and analysis
- **Languages:** English (B2), Turkish (Native)

## EXPERIENCE

July 2019 - August 2019

**TEİAŞ – Adana | Electrical and Electronics Engineering Intern**

- Gained hands-on experience in the operation and maintenance of electrical panels.
- Worked on energy transmission systems and learned about daily operations.
- Conducted maintenance and troubleshooting, resolving issues in electrical panels.
- Applied theoretical knowledge in a practical field environment.

July 2021 - July 2021

**Ecodation | Artificial Intelligence Intern**

- Participated in projects focused on artificial intelligence and sustainability.
- Worked on data analysis and machine learning initiatives.
- Developed teamwork skills and attended seminars to stay updated on industry trends.

## EDUCATION

2014 – 2020

**İskenderun Technical University (İSTE)**

Bachelor's Degree, Electrical and Electronics Engineering
