

GIZEM GULCU

ELECTRICAL & ELECTRONICS ENGINEER | DATA SCIENCE & MACHINE LEARNING

Çukurova, Adana, Turkey | +90 553 358 53 91 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Kaggle](#)

PROFILE

Electrical and Electronics Engineer with a self-directed transition into data science and machine learning, built through consistent, hands-on study in Python, R, and statistical analysis. Practical experience applying AI to sustainability initiatives, paired with a solid engineering foundation in electrical systems and CAD-based design. Focused on turning data into clear, real-world impact and continuing to grow toward advanced data science and AI roles.

SKILLS & ABILITIES

Programming: Python, R

Data Science: Data analysis & visualization, machine learning algorithms and models, deep learning fundamentals, statistical analysis and interpretation

Engineering Tools: PCL & AutoCAD for electrical project design and analysis

Languages: Turkish (Native), English (B2)

EXPERIENCE

Artificial Intelligence Intern — Ecodation

July 2021

- Contributed to AI projects centered on sustainability, working across data analysis and machine learning initiatives.
- Collaborated within a project team and attended technical seminars to stay current with industry practice.

Electrical & Electronics Engineering Intern — TEİAŞ, Adana

July 2019 – August 2019

- Supported operation and maintenance of electrical panels within an energy transmission environment.
- Performed maintenance and troubleshooting to resolve issues in electrical panels.
- Applied theoretical coursework to practical field conditions under senior engineer supervision.

EDUCATION

B.Sc. in Electrical and Electronics Engineering

İskenderun Technical University (İSTE) | 2014 – 2020

CERTIFICATIONS & TRAINING

- Miuul — Data Scientist Mini Bootcamp, Machine Learning, Feature Engineering, Veri Bilimi İçin Python Programlama, HERDataCamp
- Dataquest.io — Advanced Data Cleaning in Python, Data Cleaning and Analysis in Python, Intermediate Python for Data Science
- Techcareer.net — Data Science with Python Bootcamp (Cumhuriyet'imizin 100. Yılı Kadınlara Özel)
- Akbank Gençlik Akademisi — Analitik 101
- Coderspace — Data Science Day
- Ecodation — Artificial Intelligence Training; Internship Program
- Kodluyoruz — Gelecek Hayalim: W-Code Programı; YGK - Veri Bilimi ve Yapay Zeka; LinkedIn & GitHub Profil Oluşturma ve Geliştirme Atölyesi
- Sertifier Türkiye — IEEE İTÜ Teknoloji Konferansı Katılım Belgesi
